

## **NEW Skicircus: great skiing on 270 km of downhill runs**

The Skicircus starts this coming winter in a league of its own! With the merger with the neighboring ski resort Fieberbrunn, the number of ski run offerings in the popular winter sports destination has increased to 270 km of downhill runs in every kind of variant and level of difficulty. Thus, Skicircus Saalbach Hinterglemm Leogang Fieberbrunn is not only the largest contiguous area but also one of the most diverse ski areas in Austria. Ranging from gentle slopes and expansive carving runs over deep snowy freeride spots to the fast-paced World Cup downhill, you can find everything here that will make the hearts of winter sports enthusiasts beat faster. Snow trails, perfectly-shaped snow parks and natural freeride parks offer fun and action for young and old. For those who still have not had enough after a full day on the slopes, floodlit pistes, tubing, ice-cart, snowmobile and luge runs await, along with a network of many kilometers of perfectly groomed cross-country trails.

### **Perfect conditions**

Convenience, guaranteed snow and slope quality are very important at Saalbach Hinterglemm Leogang Fieberbrunn. A team of 120 experienced employees daily ensure perfectly groomed slopes with a fleet of 60 snow groomers and, when needed, help out Mother Nature with a sophisticated snowmaking system consisting of more than 900 snow cannons and 12 storage ponds. 70 highly modern lift systems allow guests to proceed quickly and comfortably to the vast Skicircus – including the new 10-person TirolS gondola from Fieberbrunn on the Reiterkogel and the new Bernkogel 6-seater chairlift in Saalbach. With the Vierstadelalm run (3.5 km) in Fieberbrunn and the Steinberg run (4.7 km) in Leogang, two completely new downhill runs are available.

### **From the charm of alpine huts to a gourmet restaurant**

Fresh air and lots of exercise can make your stomach growl. But the more than 60 ski huts in the entire Skicircus area relieve this situation and invite guests to refresh themselves, to quench their thirst or to simply enjoy the views and the sun. Together with the numerous restaurants in the valley, you can find everything at Skicircus Saalbach Hinterglemm Leogang Fieberbrunn to delight your taste buds – from traditional local cuisine to a gourmet menu at the Chef's hat level.

### **The finest après ski and eventful action**

For those looking for party action and a vibrant nightlife, Skicircus Saalbach Hinterglemm Leogang Fieberbrunn offers inexhaustible options: with the magic of an alpine hut or traditional après ski, in countless pubs and bars with live music or at numerous high-profile events, which also regularly attract the celebrity scene – such as the “Formula Snow” snowmobile race in Saalbach Hinterglemm.
